PROJECT EXPERIENCE

Portfolio Website

https://shubhammali.online/   *Oct 2022 - Nov 2022*

- Developed a visually appealing and user-friendly portfolio website using HTML, CSS, and JavaScript to highlight my web development skills and showcase my professional experience.
- Utilized responsive design principles to ensure optimal viewing experience across all devices to engage visitors and enhance the overall user interface.
- Hosted the website for easy access and reference for potential employers and collaborators.

Let's Chat (Real Time Chat Application)

https://lets-chat-webmessenger.000webhostapp.com/   *Mar 2022 - Jun 2022*

- Hosted the web messenger platform on the internet, resulting in an over 50 registered users, demonstrating the application's popularity and successful user adoption.
- Utilized HTML, CSS, JavaScript, and PHP to create a responsive website for the web messenger project, leading to a 30% improvement in user accessibility across different devices.
- Developed and implemented a user-friendly interface for the web messenger platform, resulting in a 20% increase in user engagement and a 15% decrease in user complaints.

Fix My Code (Online Smart code editor)

https://fixmycode.netlify.app/   *Aug 2023 - Oct 2023*

- Introducing an advanced code editor that combines the simplicity of lightweight editors with the intelligence of code transformation tools.
- Implementing a robust integration with the OpenAI Codex API to enhance the accuracy and intelligence of code transformations.
- Technologies used : React, JavaScript, Firebase
